Estonian national biocidal product registration certificate during the transition period

Pursuant to § 49 of the Biocides Act, the Health Board amends state registration certificates **2081/20** for the placing on the market of the biocidal product "**Elixir Universal Disinfectant**" and for use in accordance with the information approved in the registration application:

- active substances: Active chlorine released from hypochlorous acid (CAS No 7782-50-5, no EC No) - 0.045% wt / vol

product type: 2, 4

target organisms: bacteria, fungi, viruses

users: consumer, professional.

Product types 3 and 5 are added.

The registration certificate shall be valid until the entry into force of Article 9 of Regulation (EU) 528/2012.

The biocidal product label shall be established in accordance with Article 69 of Regulation (EU) No 528/2012 of the European Parliament and of the Council and the information approved in the application for registration of the biocidal product.

The marketing authorization holder shall be responsible for ensuring that the biocidal product is made available in accordance with Articles 69 and 72 of Regulation (EU) No 528/2012 of the European Parliament and of the Council.

In order to change the information provided in the registration application, the information to be changed must be submitted before the change is implemented.

With respect,

Enda Veskimäe

Head of Department Chemical
Safety Department
